

Smarter Dental Plans

Expanded dental benefits for those who need them most

A variety of medical conditions have oral health implications. Your group dental coverage includes Delta Dental of Wisconsin's Evidence-Based Integrated Care Plan (EBICP), which provides additional cleanings and/or fluoride treatments to people with these conditions. These benefits can play an important role in the management of these medical conditions.

If you have one or more of the conditions you can enroll yourself or your dependents, or your dentist can enroll you. Once you enroll, you are immediately eligible for the EBICP benefits.
