| | | | | | |
| 11. (a) EXPLANATIC | N/JUSTIFICATION (please be specific) | | | | |
| control HVAC syste | stems have moved from physical lock and ems. Facilities Management needs a positio Iding access, temperature control, and othe | n to oversee the purchase, config | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

(b) What are the consequences of not funding this request?

The County will be without an individual responsible for overseeing these important hardware and software controls. These systems may not per optimally without proper configuration. Additionally, there are security risks for not accurately programming building access.

(c) What savings/productivity improvements will result from approval of this request?

The HVAC controls will work effectively and the county will be able to efficiently heat and cool buildings.

ADMINISTRATION-CONTROLLER

8/24/2023

| Dept: | Administration | 15 | DANE COUNTY | Fund Name: | General Fund |
|-------|----------------|--------|-------------|------------|--------------|
| Prgm: | Controller | 114/07 | | Fund No: | 1110 |

Mission:

To provide Dane County government with a centralized accounting, financial management and payroll system, accompanied by controls relating to each aspect of the system. To provide an annual audit of the County's financial records by an independent audit firm. To provide for an annual update to the County's indirect cost allocation plan, which allows the County to recover indirect costs associated with various programs funded by the state and federal government, and used to recover indirect costs from the enterprise and internal service funds of the County.

Description:

Under Chapter 59.72 of the Wisconsin State Statutes, the division provides centralized financial management, accounting, and internal control services consistent with federal and state laws, Generally Accepted Accounting Principles, and Governmental Accounting, Auditing, and Financial Reporting guidelines; maintains the books of account, the indirect cost plan, payroll services; summarizes and publishes necessary financial information, including the Comprehensive Annual Financial Report; coordinates the capital borrowing with financial advisor, bond counsel, and Moody's Investor Service; prepares tax apportionment; provides policy, budget, and management services to the County Executive, County Board, departments, various boards, commissions, committees, and related agencies; and serves as the County Auditor as defined statutorily. The annual audit provides the County with the following reports: 1) Comprehensive Annual Financial Report 2) Supplementary Single Audit Report and 3) Comprehensive Management Letter. The indirect cost allocation plan contract provides for the annual updating of the plan, the negotiation and securing of approvals from the cognizant agencies assigned to the County by the state and federal governments, and the preparation and filing of claims with the proper agencies.

CAPITAL PROJECT DETAIL SHEET

Year: 2024

Org: CPADMIN

Fund: CAPITAL PROJECTS FUND

Agency: ADMINISTRATION

Account: 58923: VEHICLE & EQUIPMENT REPLACEMNT

| PROJECT TITLE | PROJECT COST COMPONENTS (budget yea | r) | |
|---|---|---------------------|------------------|
| Public Works Fleet - Electric Vehicle Purchase | Quantity and/or descriptive information | | <u>Cost</u> |
| PROJECT DESCRIPTION / JUSTIFICATION / LOCATION | 3 Hyundai lonic 5 (or equivalent) | | \$ 53,000 |
| Public Works is in need of fleet vehicles. The current fleet consists of two vehicles that are structured under the DOA fleet and three vehicles belonging to Waste & Renewables that are used for daily project duties. With the restructuring Of Public Works to DOA in 2022 the need to establish a fleet was recognized as W&R will be upgrading their fleet to meet the needs of an expanding workforce. Public Works is looking to purchase three Electric Vehicles. Utilizing this technology will help meet the net zero carbon goals established by the administration. Project management duties are well suited to the use of electric vehicles and there will be no negative impact of making the conversion to this technology once charging stations are in place. | | | 53,000 53,000 |

Fund: CAPITAL PROJECTS FUND

Org: CPFACCCB Agency: ADMINISTRATION

Account: 57168: CCB AIR HANDLING UNIT REPLACE

| PROJECT TITLE | PROJECT COST COMPONENTS (budget year) | |
|--|---|--------------|
| CCB Air Handler Unit Replacement | Quantity and/or descriptive information | <u>Cost</u> |
| PROJECT DESCRIPTION / JUSTIFICATION / LOCATION | Additional funds are needed to replace Air Handler Unit | \$ 250,000 |
| Description/Location: Funding requested to supplement the \$500,000 that was allocated in 2022 (CPFACCCB 57168) to replace the Air handler Unit #7, which serves the Juvenile Detention and Reception areas in the City County Building. Justification: Air Handler Unit #7 is at end of life and in need of replacement. The additional funding is needed to cover the increased cost of materials. | | |

Account: 57379: EAST DISTRICT CAMPUS-GEOTHERML

| PROJECT TITLE | PROJECT COST COMPONENTS (budget year) | | |
|---|---|--------------|--|
| East District Campus-Geothermal | Quantity and/or descriptive information | <u>Cost</u> | |
| PROJECT DESCRIPTION / JUSTIFICATION / LOCATION | Funding would supplement 2023 budget allocation | \$ 150,000 | |
| Location/Description: This funding would supplement the 2023 budget allocation of \$330,000 (CPFACMGT 57379) for design and construction of a high efficiency geothermal heating and cooling system that leverages waste heat from the RNG facility. The system would be designed to serve existing facilities at the East District Campus, including the East Highway Garage as well as planned future facilities such as the 911 Center. Justification: Transitioning the East District Campus to geothermal heating and cooling will reduce Dane County's use of natural gas and thus reduce our overall greenhouse gas emissions. The project will reduce emissions to zero for the new East District Campus facilities, which is consistent with our leadership on climate action. This project is one of two design projects prioritized out of the benchmarking effort associated with the 2022 Comprehensive Energy Assessment. Staff prioritized this project because the savings are substantial and this is the ideal time to design a system to serve all of the facilities at the East District Campus. Initially the East District Campus received waste heat from the landfill's system to generate electricity from landfill methane. The system design will include feasibility analysis and design for a geothermal system serving the two existing facilities as well as coordination with the 911 Center design and the County Clerk's facility planned for the site. | of \$330,000 for design and construction of a high efficiency geothermal heating and cooling system that leverages waste heat from the RNG facility at the East District campus. | | |

|---|--|-------------|
| Verona Campus-CFS and Geothermal | Quantity and/or descriptive information | <u>Cost</u> |
| PROJECT DESCRIPTION / JUSTIFICATION / LOCATION | Funding would supplement 2023 budget allocation | \$ 150,000 |
| Description/Location: Funding would supplement 2023 budget allocation of \$550,000 (CPFACMGT 58935) for design and construction of a high efficiency heating, cooling and ventilation (HVAC) system for Consolidated Food Services facility as well as expanding the district geothermal system that will supply/supplement the heating and cooling to all three facilities at the Verona campus: Consolidated Food Services, Badger Prairie Needs Network and Badger Prairie Health Center. This project is one of two design projects prioritized out of the benchmarking effort associated with the 2022 Comprehensive Energy Assessment. Justification: This upgrade will substantially reduce the County's energy use and greenhouse gas emissions, consistent with our climate goals. Currently the three facilities at the Verona Campus have substantial natural gas usage. This project will reduce natural gas consumption, thereby reducing Dane County emissions. Geothermal heating and cooling systems are substantially more efficient than the systems currently installed in these facilities. Given the age and complexity of the existing heating and cooling system at Consolidated Food Services, the design effort will include a redesign of that HVAC system along with the district geothermal, which will serve all three facilities. Staff prioritized this project | of \$550,000 for the design and construction of a high efficiency HVAC system for the Consolidated Food Services facility and expand the geothermal system to supplement the heating and cooling to all three facilities at the Verona campus. | δ 130,000 |
| because the savings are substantial and the existing heating system at Consolidated Food Services is nearing the end of its useful life. More, the heating and cooling systems in these facilities are relatively inefficient compared to a district geothermal system | TOTAL NON-DEBT REVENUE SOURCE (Type/Object/Description// | - |

| PROJECT TITLE | PROJECT COST COMPONENTS (budget year) | | |
|---|---|----|---|
| Utility Infrastructure for East District Campus Development | Quantity and/or descriptive information | | <u>Cost</u> |
| PROJECT DESCRIPTION / JUSTIFICATION / LOCATION The East District Campus consists of two existing facilities and greenfield space that will accommodate the new Public Safety Communications (911) Facility along with sites for future development. This entire property was annexed into the City of Madison in 2023 and will need to be developed in a manner that meets the needs of the City of Madison Comprehensive Plan, WI DOT and the Dane County Master Plan to meet the needs of the new PSC building that is currently in design. Installation of approved utilities will be achieved through a Developers Agreement with the City of Madison. Scope of infrastructure will include but not be limited to the following components. 1.) Extension of existing water main and establishing a dual feed to provide adequate pressure for fire protection, mechanical and domestic needs of existing and future site development. 2.) Sanitary sewer extension from current termination point on City Hwy AB eastward to allow for facility connection and future expansion. 3.) Comprehensive storm water management plan will dictate construction of approved basins and duct for site development. 4.) Potential requirements for street lighting, sidewalk, paving and fine grading. 5.) Internal facility upgrades as needed to connect to municipal services. | Sanitary Sewer - 2,750 In ft. @ 350 Water Main - 3,035 In ft. @ 350 Loop Closure- Water Main - 3,120 In ft. @ 44 Storm water - 2,000 In ft. @ 350 Paving/ Fine Grading tons @ 85 Lighting Internal facility infrastructure Contingency @ 20% | 00 | \$ 962,500 1,062,250 1,248,000 700,000 150,000 100,000 300,000 904,560 |
| budget request. Without funding this infrastructure and site development the PSC facility construction will not be possible. The Highway and Medical Examiners facilities will remain on well and septic which has proven to be problematic over the years with no redundant water supply. A conceptual brine production facility also will not be possible without a dedicated water supply. | NON-DEBT REVENUE SOURCE (Type/Objection N NONE PROJECT FINANCIAL SUMMARY | - | , ., , |

This project funds replacements for workstations, terminals, laptops, printers, monitors and other end user equipment on a rotating schedule. The County keeps a lifecycle schedule for upgrades of all PCs, terminals, printers and laptops over 3 to 5 years to meet current acceptable technology needs. Keeping devices current reduces security vulnerabilities and improves worker productivity. The budget request for 2024 is significantly higher than years prior as equipment procured during the start of the 2020 pandemic is aging out and needs replacement.

| This project connects Dane County's multiple facilities to our fiber network for faster and more reliable connections. | Badgernet Location Upgrades Additional Fiber Construction and Repai | r | 45,000 70,000 |
| In 2024 this project will continue connecting remaining facilities and continue in the construction of redundant divergent paths. Redundant divergent paths help prevent downtime due to malfunctions or inadvertently cut fiber optic lines. This will reduce operating costs by eliminating the lease payments paid to AT&T and other telecom providers while also increasing the speed of network connections. Expansion of the south Madison fiber loop as well as replacements of old BadgerNet connections are the primary expenses expected for 2024. | | | |

| PROJECT TITLE | PROJECT COST COMPONENTS (budget yea | r) | | | |
|--|---|---------------------|------------------------------|--|--|
| Network Infrastructure Upgrade | Quantity and/or descriptive information | | <u>Cost</u> | | |
| PROJECT DESCRIPTION / JUSTIFICATION / LOCATION | | | | | |
| This project continues to build on previous investments to Dane County's Network Infrastructure. This project is used to upgrade older routers, switches, UPS devices and other networking equipment throughout the county. This project is also used to upgrade network closets throughout the county. | UPS Replacements Network Switch Replacements Misc. Cabling, Racks and Other Equipme | ent | 150,000 180,000 30,000 | | |
| Information Management attempts to keep equipment on a regular rotation to prevent systems from being too far out of date - the continued investment in this project line allows switches and routers to be replaced before they become a problem. Ideally we replace this equipment every 5-7 years. Failure to do so results in equipment that is unable to keep up with modern requirements such as increased power output needs for PoE devices or more secure encryption technologies. This project continues to replace devices that improve reliability and performance of all Dane County facilities which results in higher productivity for Dane County staff and partners. This project funds upgrades to network closets to improve airflow which extends the life of equipment and to expand network connections to county offices. | | TOTAL | \$ 360,000 | | |

|--|--|-------|-------------------|
| Wireless Infrastructure Upgrades | Quantity and/or descriptive information | | <u>Cost</u> |
| PROJECT DESCRIPTION / JUSTIFICATION / LOCATION | Controllers | | \$ 25,000 |
| Information Management has a planned upgrade to the entire wireless infrastructure in 2024 which includes the replacement of various access points as well as the underlying controllers that run the access points to a new vendor. To provide consistent and reliable wireless access to County Staff and the Public, Dane County's wireless infrastructure needs to be upgraded to the latest technologies and the coverage area increased in all facilities within Dane County. An increase in wireless availability leads to better staff efficiencies and an increase in secured use of wireless by the public for County services. | Access Points Replacement Wiring | | 180,000 15,000 |

| PROJECT DESCRIPTION / JUSTIFICATION / LOCATION | Hardware and Software Components | | \$ 120,000 | | |
| This project continues to improve Dane County's overall defenses against cyber threats. Included in this project line are hardware upgrades, software upgrades and user training. Dane County is constantly defending against cyber attackers who attempt to penetrate Information Systems to steal personal information, attempt to extort information for financial gain or to disrupt government operations. This effects all departments ranging from the public safety systems to financial systems. This project allows Dane County to continue to keep up to date with the ever evolving cyber security landscape by upgrading equipment and software while also allowing Dane County to better educate county staff on cyber threats.
